Dental Health Products Inc. (DHP) announces 3 new partnerships: Renfert, St. Renatus, LLC and Anterior Quest. Each partnership has unique product offerings for dental offices nationwide.

Renfert is an owner-managed, medium-sized company with their headquarters in Hilzingen, Germany. They have accompanied and influenced the development of modern-day work in daily dental routines since 1925. Renfert's high-quality dental technology units and materials are now sold in over 120 countries. Renfert stands for intelligent solutions and reliable service to make the work of every technician better, more efficient and more precise.

St. Renatus, LLC, named after the patron saint of anesthesia, is a privately held company based in Fort Collins, Colorado. Their drug development initiative began over 10 years ago to be a catalyst for enhanced patient comfort and care. Their new FDA-approved, needle-free nasal spray, Kovanaze™, is the first proof point of those efforts, and can make the dental experience—for patient and dentist alike—more comfortable and less stressful.

Anterior Quest Inc. located in Jenison, MI is a company dedicated to providing the most environmentally friendly and healthy Evacuation System. Their dental waste disposal system has won multiple awards including Top Amalgam Containment System by The Dental Advisor three consecutive years!

Dental Health Products, Inc. (DHPI) has been servicing the dental industry for over 25 years. DHPI offers a full line of dental supplies, dental equipment, and dental solutions.

For more information about DHPI, please call 800-626-2163 or visit: [www.dhponline.com](http://www.dhponline.com)
