

# CLEANI with Dual Tanks

## 2-Stage Cleaning Process

- 2-stage cleaning process is recommended for most biocompatible 3D printing resins
- Interchangeable CLEANI tanks ensure zero cross-contamination

## Wash Print & Build Platform

- Minimize cleaning work with adjustable jigs to accommodate all three sizes of the SOL build platforms: Large, Medium and Small

## Adjustable Wash Cycles

- 3 pre-set wash cycle times (3, 5 and 10 minutes)
- Removes up to 90% of excess within first wash

## A Seamless Transition from Printer to Washer

Perfectly Sized for  
Dental Practices

No guesswork:  
hydrometer indicates  
solution purity

Vortex motion with  
gentle vibrations to  
reduce damage risk
