

THE KAVO ADVANTAGE

Your guide to KaVo innovations

WELCOME TO THE **KAVO** ADVANTAGE

Since 1909, dental professionals around the world have trusted the quality and precision of KaVo instruments. With more than 5 million handpieces sold worldwide, KaVo is the number one selling handpiece in the world.

Dental Excellence since
1909

In 1928, the first
sterilizable handpiece
is created by KaVo.

1909 In 1909, KaVo is
founded by Alois
Kaltenbach and in
1919 Richard Voigt
joins the company.

In 1958, KaVo launches
its first turbine called
Borden-Air 60.

Our vast line of quality handpieces showcases our attention to your level of care while delivering performance that lasts. It is our passion for excellence that enables us to deliver the best air-driven, electric and surgical systems worldwide.

KAVO

Electrics Collection

The pinnacle of KaVo innovation

KaVo offers a comprehensive electrics system. By combining KaVo's smallest head size for best access and visibility, a reliable triple gear system, and a short, light-weight motor, KaVo provides you with the ideal solution for synchronized efficiency.

Smaller Head Size

For easy, efficient access to the preparation area

KaVo Push-Button Chuck System

With a retention power of up to 30 N for secure retention of the bur

Low Volume (only 55 dB(A))

To eliminate unpleasant noises for patients and treatment personnel

Optimum Access

Thanks to the 100°/19° head/knee angle combination

Triple-Gear Technology

For ultra-smooth operation with minimal vibration

Plasmatec™ Coating

For a perfect grip and excellent hygiene

Powerful balance

Celebrating over 10 years of its revolutionary impact to electrics innovation, KaVo's **INTRA™ LUX KL 703 LED** offers impressive power and handling. With perfect ergonomics and optimum weight distribution, the KL703 LED is the powerful force behind KaVo's award winning Electrics collection.

ELECTROmatic Premium

The ultimate all-in-one device for intuitive operation and integrated endo function. Available with one or two motors for easy switching between high-speed and low-speed applications. The pre-programmed file systems make it easy to plan and customize your endodontic sequence.

ELECTROmatic Plus

The perfect solution for all high-speed and low-speed applications. ELECTROmatic™ Plus is equipped with an easy-to-read LCD display and multiple mounting options offer the best visibility and ergonomics to adjust the motor speed settings.

ELECTROmatic

The entry into the world of KaVo electrics. Pairs perfectly with the innovative COMFORTdrive 200XDR high-speed handpiece — now with increased speed range for some low-speed applications.

SMARTmatic Low-speed Collection

The smart choice for your practice

The SMARTmatic series unites KaVo's trusted quality with smart features for optimal ease of use and successful clinical outcomes. As a successor to the established INTRAmatic E / ES series, our SMARTmatic compliments the MASTER and EXPERT series to offer you an attractive entry into the world of KaVo.

Exceptional Quality

Designed by the leading dental brand, known and trusted for over 110 years – Made in Germany.

Versatile Portfolio

Wide range of treatment options thanks to 13 unique instruments within the SMARTmatic collection

Premium Materials

Stainless steel construction for long-lasting durability and low cost of ownership

Precise Ball Bearings

Made with quality performance top of mind, extremely precise ball bearings for a high degree of efficiency

Smart Design

Ergonomic design provides better visibility and balance for precise treatment

QUATTROcare Plus

Automated handpiece maintenance system

The user friendly QUATTROcare™ Plus handpiece maintenance system is designed to clean, lubricate and purge your instruments with the simple push of a button. Maintenance with the QUATTROcare Plus system means less wear, less repairs, less staff down time, smoother operation, and increased longevity of your handpieces.

Easy to Use

Up to four (4) handpieces or air motors are cleaned, lubricated and purged in the same cycle

Safe, Controlled Cleaning

Completely controlled cleaning and purging procedure

Economical Investment

Can be used for virtually all manufacturers' handpieces, air driven scalers and air motors

Fast Cleaning Cycle

Flexible programming allows setting of total cycle time from 20-45 seconds per handpiece

Chuck Care Maintenance

Chuck care system provides easy maintenance of handpiece chuck

QUATTROcare Plus™

Part no. 1008.3805

Exact Amount, Every Time

QUATTROcare Plus provides the exact amount of spray to properly lubricate your handpieces. Our unique formulation of spray cleans and lubricates in just one step.

Easy operation with three simple steps

The use of QUATTROcare Plus ensures consistent servicing and minimizes errors, which leads to savings from unnecessary repairs. Discover tips on how to prolong the service life of your KaVo handpieces by downloading our KaVo Care & Maintenance Brochure.

KAVO HYGIENE

Complete routine care.

KaVo Hygiene is a complete solution which helps you provide your patients with excellent dental care. Start the hygiene workflow with the SONICflex for scaling, then PROPHYflex for tooth cleaning, PROPHYwiz for tooth polishing, and DIAGNOdent for caries and sub-gingival calculus detection.

SONICflex quick HYGIENE — STEP 1 SCALING

Expand your clinical capabilities while improving efficiency with KaVo SONICflex™. Boasting more than 50 tips to support procedures ranging from hygiene, Endodontics, Orthodontics, CAD/CAM, and minimally invasive dentistry, SONICflex can truly become your go-to instrument. Easily integrating onto any delivery unit with a MULTIflex coupler adds flexibility and versatility to every operatory.

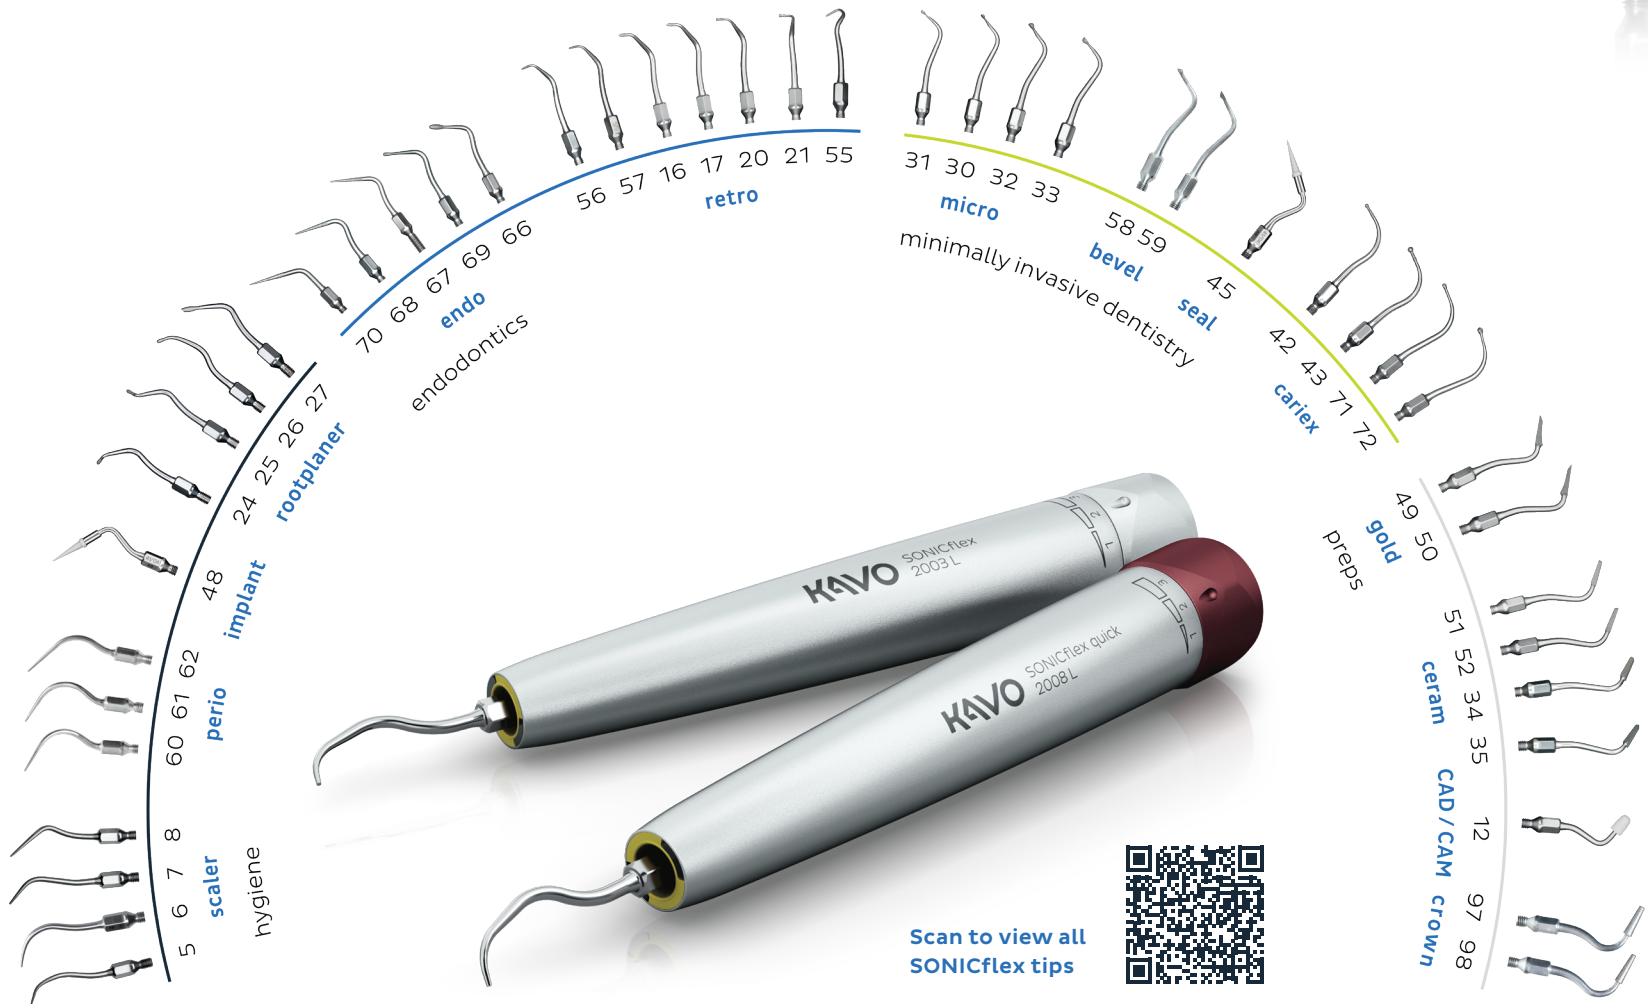

SONICflex™

Part no. 1007.1604 (2008 L quick)

Part no. 1000.8333 (2003 L)

SONICflex Tips

SONICflex provides versatile tips for excelling in applications like caries therapy, endodontics, sealant prep, restorations, CAD/CAM prep, and inlay/onlay procedures.

KAVO

RONDOflex plus 360

HYGIENE — ABRAISION

RONDOflex plus 360

The RONDOflex™ plus 360 is a portable, easy-to-use abrasion handpiece that adds water spray to air abrasion technology. The RONDOflex plus is an efficient, “snap-on” alternative to your existing air abrasion unit or small investment to get you started. From primary, secondary and wall dissections to finishing: the RONDOflex plus 360 air abrasion provides everything you need to ensure that your restorations provide lasting satisfaction. It doesn't matter whether you are opening a cavity, performing caries excavation or designing fillings.

and powder options**

DIAGNOdent pen

HYGIENE – CARIES DETECTION

How the DIAGNOdent Works

The DIAGNOdent™ pen uses laser fluorescence to aid in the detection of caries within the tooth structure. As the incident laser light is dispersed into the site, carious tooth structure will exhibit fluorescence, proportionate to the degree of caries, resulting in elevated scale readings on the display. Clean healthy tooth structure exhibits little or no fluorescence and will result in very low scale readings on the display.

Proven Clinical Results

Treatment decisions require a higher degree of certainty. The DIAGNOdent laser caries detection aid removes the doubt from treatment decisions regarding hidden caries or questionable stained grooves. The device's ability to see into occlusal pits and fissures enables dentists to treat subsurface carious lesions with confidence.

DIAGNOdent™ pen

Part no. 1004.3400 (pen)

Part no. 1004.8400 (display/holder)

Surgical systems

The KaVo Surgical portfolio redefines the best. They are simple, intuitive and easy to use with large color screens and pictorial guides for step-by-step implant procedures. KaVo's MASTERSurg and EXPERTSurg units offer intelligent power and precise torque.

MASTERSurg LUX Wireless

Wireless foot control makes the MASTERSurg a comfortable system to use while delivering maximum performance and safety. Easily customize up to 10 programs, each with 10 programmable steps for your desired implant workflow.

EXPERTSurg LUX

EXPERTSurg is easy to operate, saving you time to perform at your best. One touch auto calibration guarantees precise speed and torque for maximum safety.

Performance

Experience exceptional performance thanks to KaVo's INTRA™ S600 LED, one of the world's lightest and smallest surgical micro motors that delivers adjustable torque up to 80 Ncm in implant mode.
