Midmark M9[®] Steam Sterilizer

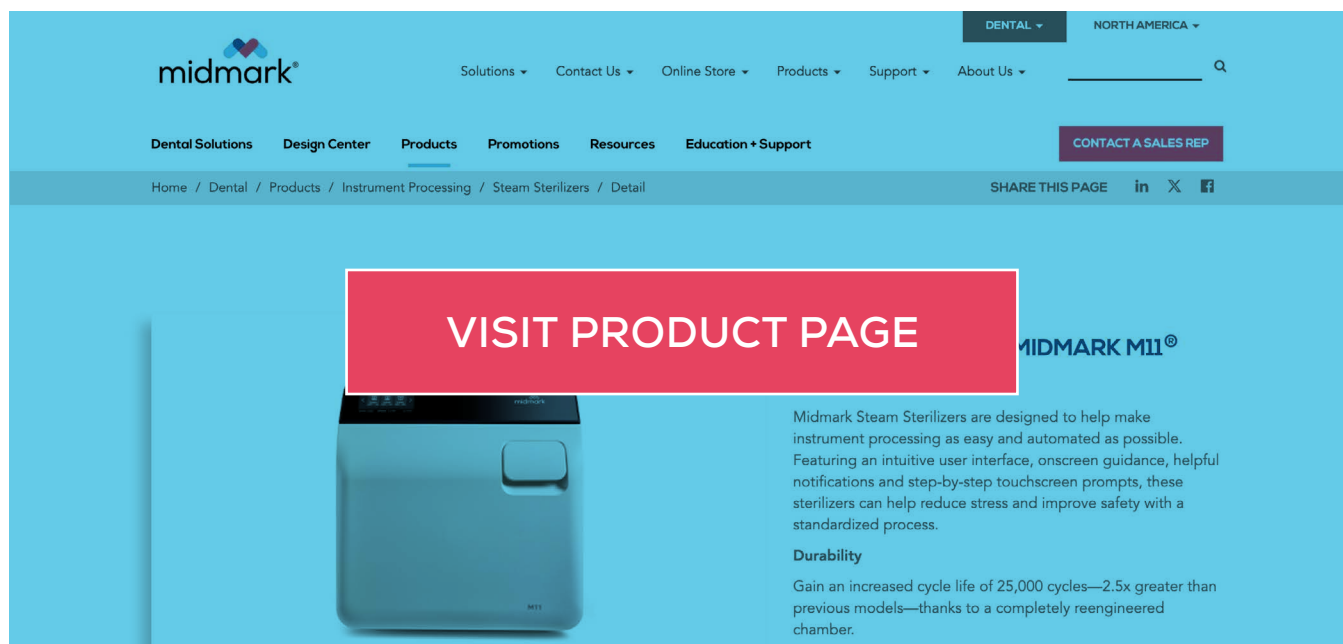

Pack all the reliable sterilizing power a practice needs into a compact unit perfect for areas with limited space.

A screenshot of the Midmark M9 product page. The page has a light blue header with the Midmark logo on the left and navigation links (Solutions, Contact Us, Online Store, Products, Support, About Us) on the right. Below the header is a secondary navigation bar with links to Dental Solutions, Design Center, Products (highlighted), Promotions, Resources, and Education + Support. A search bar and a 'CONTACT A SALES REP' button are also present. The main content area features a large image of the Midmark M9 steam sterilizer on the left. Overlaid on this image is a large red rectangular button with the text 'VISIT PRODUCT PAGE' in white. To the right of the image, there is text describing the sterilizer's features and durability. The text states that Midmark Steam Sterilizers are designed for easy and automated instrument processing, featuring an intuitive touchscreen interface and onscreen guidance. It also highlights the durability of the unit, noting an increased cycle life of 25,000 cycles—2.5x greater than previous models—due to a reengineered chamber. The page also includes a breadcrumb trail at the top: Home / Dental / Products / Instrument Processing / Steam Sterilizers / Detail, and social media sharing options for LinkedIn, Twitter, and Facebook.

MIDMARK M11[®]

Midmark Steam Sterilizers are designed to help make instrument processing as easy and automated as possible. Featuring an intuitive user interface, onscreen guidance, helpful notifications and step-by-step touchscreen prompts, these sterilizers can help reduce stress and improve safety with a standardized process.

Durability

Gain an increased cycle life of 25,000 cycles—2.5x greater than previous models—thanks to a completely reengineered chamber.
