STAT KIT® SM Series Highlights

STAT KIT SM Series Emergency Medical Kits are equipped to keep your facility prepared for common medical emergencies. The kits are pre-assembled with essential medications and medication delivery devices in a well-organized, lightweight carrying case. See table below for model specific contents.

Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits saving time and gaining peace of mind.

OnTraq™

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.

Essential medications for common medical emergencies
