

# Still a Workhorse, Now a Thoroughbred.

**NEW**

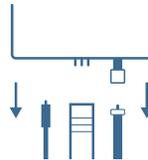

## TurboSensor<sup>®</sup> + ULTRASONIC SCALER 360<sup>°</sup>

**Built on the Trusted Performance of TurboSensor<sup>®</sup>** and refined through clinician feedback, the **new TurboSensor+360** delivers enhanced features for today's demanding workflows.

### IntelliSense<sup>®</sup> Processor

Ensures seamless performance with all market-leading 30K inserts. For those who prefer the flexibility to use 25K inserts, an optional 25/30K handpiece is available (sold separately).

**NEW**

### Fully Removable Accessories;

Waterlines, foot pedal & handpiece cable detach easily for simple maintenance and in-office servicing – reducing downtime.

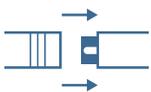

### **NEW** Built-in Scaler Waterline Protection and Compliance

With **PureClarity<sup>™</sup>** 6+ month antibacterial asymmetric, 0.2 µm microporous, chemical-free filter and shock syringe.

### **NEW** Smart Workflow Features:

- ▶ **Cruise Control** – effortless scaling without constant foot pressure
- ▶ **Purge Mode** – fast waterline flushing
- ▶ **Priming Mode** – ready to go from the first press

### Detachable, Autoclavable Handpiece

For streamlined reprocessing and enhanced infection control.

### **NEW** Color Options

Designed to match the unique style and aesthetic of every workspace.

*Designed, manufactured,  
and serviced in the USA*
