In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

[1] Substance classified with a health or environmental hazard.

[2] Substance with a work place exposure limit.

[3] PBT-substance or vPvB-substance.

*The full texts of phrases are shown in Section 16

4. FIRST AID MEASURES

Description of First Aid Measures:

General: In all cases of doubt, or when symptoms persist, seek medical assistance. Never give anything by mouth to an unconscious person.

Inhalation: Remove to fresh air, keep patient warm and at rest. If breathing is irregular, or stopped, give artificial respiration. If unconscious, place in a recovery position and obtain immediate medical attention. Give nothing by mouth.

Eyes: Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

Ingestion: If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

Most important symptoms and effects, both acute and delayed:

Overview: No specific symptom data.

5. FIRE-FIGHTING MEASURES

Extinguishing Media: Water, CO² or dry chemical. Avoid extinguishing methods which may generate dust clouds. Water stream can disperse dust into the air producing fire hazards and possible explosion hazards if exposed to ignition source.

Special Hazards arising from the substance or mixture: Hazardous decomposition, Methacrylate monomer and Oxides of Carbon when burned. Keep away from heat / sparks / open flames / hot surfaces – no smoking.

Ground / bond container and receiving equipment; Use explosion – proof electrical / ventilation / light / equipment.

Hazardous Combustion Products: Firefighters should wear self-contained breathing apparatus.

Dust explosions are possible. Polymer dust is combustible. The explosive limits of polymer dust particles suspended in air are approximately those of coal dust.

ERG Guide #: ---

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Put on appropriate personal protective equipment. (See Section 8).

Use good personal hygiene practices, Wash hands before eating, drinking, smoking and/or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

Environmental Precautions: Do not allow spills to enter drains or water ways.

Methods and material for containment and cleaning up: Sweep and/or vacuum to clean up spills. Do not use any procedures which cause dispersion of dust into the air if any possibility of ignition exists. Dispose in accordance with Local, State and Federal regulations.

7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid dust generation when handling product to minimize explosion potential. Use only in well ventilated areas. See section 2 for further details. – [Prevention]

Conditions for Safe Storage, Including any Incompatibilities: Handle containers carefully to prevent damage and spillage. Keep container tightly closed. Incompatible materials: Strong oxidizing agents. See Section 2 for further details. – [Storage]

Specific end use(s)
No data available.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

0009003-42-3	PROPENOIC ACID, 2-METHYL-, ETHYL ESTER, HOMOPOLYMER	OSHA	No Established Limit
		ACGIH	No Established Limit
		NIOSH	No Established Limit
		Supplier	No Established Limit

The exposure limits for nuisance dust are: OSHA PEL: 15 mg/m³ (50 mppcf*) TWA, ACGIH 10 mg/m³

Carcinogen Data:

CAS No.	Ingredient	Source	Value
0009003-42-3	PROPENOIC ACID, 2-METHYL-, ETHYL ESTER, HOMOPOLYMER	OSHA	Select Carcinogen: No

Respiratory: If workers are exposed to concentrations above the exposure limit, they must use appropriate certified respirators

Eye: Protective safety glasses recommended.

Skin: If it is anticipated that prolonged skin contact will occur, use gloves designed for routine industrial use.

Engineering Controls: Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentration of particulates and any vapor below occupational exposure limits, suitable respiratory protection must be worn.

Other Work Practices: Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
