Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product identifier

Arti-Spot Frühkontaktindikator BK 86

Use of the substance/mixture

Indicator solution Paint

Relevant identified uses of the substance or mixture:

No information available at present. Uses advised against:

No information available at present.

Details of the supplier of the safety data sheet

Dr. Jean Bausch KG, Öskar-Schindler-Str. 4, D-50769 Köln Telephone +49 (0)221-70936-0, Fax +49 (0)221-70936-66 info@BauschDental.de, http://BauschDental.de

E-mail address of the competent person: info@chemical-check.de, k.schnurbusch@chemical-check.de

Emergency telephone

Advisory office in case of poisoning:

Tel.: +49 30 / 19240 Berlin **Telephone number of the company in case of emergencies:** Tel.: ---

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

2.1.1 Classification according to Regulation (EC) 1272/2008 (CLP)

Hazard class	Hazard category	Hazard statement
Flam. Liq.	1	H224-Extremely flammable liquid and vapour.
Eye Irrit.	2	H319-Causes serious eye irritation.
STOT SE	3	H336-May cause drowsiness or dizziness.

2.1.2 Classification according to Directives 67/548/EEC and 1999/45/EC (including amendments).

F+, Extremely flammable, R12 R19 Xi, Irritant, R36 R66 R67

2.2 Label elements

2.2.1 Labeling according to Regulation (EC) 1272/2008 (CLP)

Page 2 of 13

(GB)

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 07.02.2011 / 0001 Replaces revision of / Version: 07.02.2011 / 0001 Valid from: 07.02.2011 PDF print date: 10.02.2011 Arti-Spot Frühkontaktindikator BK 86

Danger

Hazard statement

H224-Extremely flammable liquid and vapour. H319-Causes serious eye irritation. H336-May cause drowsiness or dizziness. **Prevention**

P210-Keep away from heat/sparks/open flames/hot surfaces. - No smoking. P233-Keep container tightly closed. P261-Avoid breathing vapour or spray. P280-Wear protective gloves/clothing and eye/face protection.

Response

P305+P351+P338-IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313-If eye irritation persists: Get medical advice/attention. Storage

P403+P235-Store in a well-ventilated place. Keep cool.

EUH019-May form explosive peroxides. EUH066-Repeated exposure may cause skin dryness or cracking.

Ethyl acetate diethyl ether

2.3 Other hazards

The mixture contains no vPvB substance (vPvB = very persistent, very bioaccumulative). The mixture contains no PBT substance (PBT = persistent, bioaccumulative, toxic).

SECTION 3: Composition/information on ingredients

3.1 Substance

n.a. 3.2 Mixture

Ethyl acetate		
Registration number (ECHA)	-	
Index	607-022-00-5	
EINECS, ELINCS	205-500-4	
content %	20-30

Flam. Liq./1	H224
Acute Tox./4	H302
STOT SE/3	H336

Page 3 of 13 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 07.02.2011 / 0001 Replaces revision of / Version: 07.02.2011 / 0001 Valid from: 07.02.2011 PDF print date: 10.02.2011 Arti-Spot Frühkontaktindikator BK 86

For the text of the R-phrases / H-phrases and classification codes (GHS/CLP), see Section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

Never pour anything into the mouth of an unconscious person!

Inhalation

GB

Remove person from danger area.

Supply person with fresh air and consult doctor according to symptoms.

If the person is unconscious, place in a stable side position and consult a doctor.

Skin contact

Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

Unsuitable cleaning product: Solvent Thinners

Eye contact

Remove contact lenses.

Wash thoroughly for several minutes using copious water. Seek medical help if necessary.

Indestion

Rinse the mouth thoroughly with water.

Do not induce vomiting - give copious water to drink. Consult doctor immediately. Danger of aspiration

4.2 Most important symptoms and effects, both acute and delayed

Where relevant delayed occuring symptomes and effects will be found in section 11. or at the exposure routes under section 4.1. After resorption:

drowsiness Dizziness Euphoria annovance Cramps Narcotic effect.

4.3 Indication of any immediate medical attention and special treatment needed n.c.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

CO2 Extinction powder Water iet sprav Alcohol resistant foam

Unsuitable extinguishing media

High volume water iet

5.2 Special hazards arising from the substance or mixture

In case of fire the following can develop: Oxides of carbon Oxides of nitrogen Toxic pyrolysis products. Explosive vapour/air mixture Dangerous vapours heavier than air. 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Protective respirator with independent air supply. According to size of fire Full protection, if necessary Cool container at risk with water. Dispose of contaminated extinction water according to official regulations.

SECTION 6: Accidental release measures

(GB)

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 07.02.2011 / 0001 Replaces revision of / Version: 07.02.2011 / 0001 Valid from: 07.02.2011 PDF print date: 10.02.2011 Arti-Spot Frühkontaktindikator BK 86

6.1 Personal precautions, protective equipment and emergency procedures

Remove possible causes of ignition - do not smoke.

Ensure sufficient supply of air. Avoid inhalation, and contact with eyes or skin. If applicable, caution - risk of slipping

6.2 Environmental precautions

If leakage occurs, dam up.

Prevent surface and ground-water infiltration, as well as ground penetration.

Prevent from entering drainage system.

If accidental entry into drainage system occurs, inform responsible authorities.

6.3 Methods and material for containment and cleaning up

Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth) and dispose of according to Section 13. Use no flammable substances.

Fill the absorbed material into lockable containers.

Keep moist.

Do not let the solution dry up.

Flush residue using copious water.

6.4 Reference to other sections

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

SECTION 7: Handling and storage

In addition to information given in this section, relevant information can also be found in section 8 and 6.1.

7.1 Precautions for safe handling

Avoid inhalation of the vapours.

Ensure good ventilation.

Keep away from sources of ignition - Do not smoke.

Take measures against electrostatic charging, if appropriate.

Avoid contact with eyes or skin.

Eating, drinking, smoking, as well as food-storage, is prohibited in work-room.

Observe directions on label and instructions for use.

Use working methods according to operating instructions.

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

7.2 Conditions for safe storage, including any incompatibilities

Not to be stored in gangways or stair wells.

Store product closed and only in original packing.

Do not store with flammable or self-igniting materials.

Store in a well-ventilated place.

Protect from direct sunlight and warming.

Store at room temperature.

Do not store over 30°C.

Observe special storage conditions (in Germany, e.g., in accordance with the regulations in the "Betriebssicherheitsverordnung").

7.3 Specific end use(s)

No information available at present.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Chemical Name	Ethyl acetate				Content %:20-
Chemical Name	Elliyi acelale				30
WEL-TWA: 200 ppm		WEL-STEL:	400 ppm		
BMGV:				Other information:

PDF print date: 10.02.2011									
Arti-Spot Frühkontaktindikator BK 86									
WEL-TWA: 1000 ppm (1920 mg/m3)	WEL-STEL:								
BMGV:	·	Other information:							
Chemical Name Glycerine				Content %:					
	WEL-STEL:			Contont 70.					
	VVEL-SIEL								
BMGV:		Other information:							

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany). | WEL-STEL = Workplace Exposure Limit - Short-terme exposure limit (15-minute reference period). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.

** = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

8.2 Exposure controls8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction. If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn. Applies only if maximum permissible exposure values are listed here.

8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection:

@

Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection: Solvent resistant protective gloves (EN 374). If applicable Safety gloves made of butyl (EN 374) Protective Neopren gloves (EN 374). Protective nitrile gloves (EN 374) Protective hand cream recommended.

Skin protection - Other: Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments)

Respiratory protection: Normally not necessary. If OES or MEL is exceeded. Gas mask filter A (EN 14387), code colour brown Observe wearing time limitations for respiratory protection equipment.

Thermal hazards: If applicable, these are included in the individual protective measures (eye/face protection, skin protection, respiratory protection).

Additional information on hand protection - No tests have been performed.

In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account. Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use.

The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

8.2.3 Environmental exposure controls

No information available at present.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state:

Page 6 of 13 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 07.02.2011 / 0001 Replaces revision of / Version: 07.02.2011 / 0001 Valid from: 07.02.2011 PDF print date: 10.02.2011 Arti-Spot Frühkontaktindikator BK 86

SECTION 10: Stability and reactivity

Not determined

Not determined

10.1 Reactivity

Solvents content:

See also Subsection 10.4 to 10.6. Can form explosive peroxides.

10.2 Chemical stability

See also Subsection 10.4 to 10.6. Explosive when dry.

10.3 Possibility of hazardous reactions

See also Subsection 10.4 to 10.6.

Possible build up of explosive/highly flammable vapour/air mixture.

10.4 Conditions to avoid

See also section 7. Heating, open flame, ignition sources Electrostatic charge Protect from direct sunlight. Product is light sensitive.

10.5 Incompatible materials

Avoid contact with strong oxidizing agents. Avoid contact with strong acids. Alkali metals

10.6 Hazardous decomposition products

See also Subsection 10.4 to 10.6.

No decomposition when used as directed.

SECTION 11: Toxicological information

The product was not tested.

Classification according to calculation procedure.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

For the substance / mixture / residual amounts

EC disposal code no .:

The waste codes are recommendations based on the scheduled use of this product. Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances. (2001/118/EC, 2001/119/EC, 2001/573/EC) 07 03 04 other organic solvents, washing liquids and mother liquors 18 01 06 chemicals consisting of or containing dangerous substances Recommendation: Pay attention to local and national official regulations E.g. suitable incineration plant. For contaminated packing material Pay attention to local and national official regulations Empty container completely.

Uncontaminated packaging can be recycled.

Dispose of packaging that cannot be cleaned in the same manner as the substance.

Do not perforate, cut up or weld uncleaned container.

Residues may present a risk of explosion.

15 01 04 metallic packaging

SECTION 14: Transport information

General statements UN number: Transport by road/by rail (ADR/RID)

1263

Page 12 of 13 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revised on / Version: 07.02.2011 / 0001 Replaces revision of / Version: 07.02.2011 / 0001 Valid from: 07.02.2011 PDF print date: 10.02.2011 Arti-Spot Frühkontaktindikator BK 86 UN proper shipping name: UN 1263 PAINT 3 Transport hazard class(es): Packing group: Т Classification code: F1 LQ (ADR 2011): 500 ml LQ (ADR 2009): 3 Environmental hazards: Not applicable Tunnel restriction code: D/E Transport by sea (IMDG-code) UN proper shipping name: PAINT Transport hazard class(es): 3 Packing group: F-E, S-E EmS: Marine Pollutant: n.a Environmental hazards: Not applicable Transport by air (IATA) UN proper shipping name: Paint Transport hazard class(es): 3 Packing group: Environmental hazards: Not applicable Special precautions for user Persons employed in transporting dangerous goods must be trained. All persons involved in transporting must observe safety regulations. Precautions must be taken to prevent damage. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Freighted as packaged goods rather than in bulk, therefore not applicable. Additional information: Danger code and packing code on request. **SECTION 15: Regulatory information** 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture For classification and labelling see Section 2. Observe restrictions: Yes Observe youth employment law (German regulation). Regulation (EC) No 1907/2006, Annex XVII. VOC (1999/13/EC): ~ 77,35% w/w 15.2 Chemical safety assessment No information available at present. **SECTION 16: Other information** These details refer to the product as it is delivered. Revised sections: n.a. The following statements are the indicated R-phrases / H-phrases and classification codes (GHS/CLP) for the ingredients (listed in Section 3). 11 Highly flammable. 12 Extremely flammable. 19 May from explosive peroxides. 22 Harmful if swallowed. 36 Irritating to eyes. 66 Repeated exposure may cause skin dryness or cracking. 67 Vapours may cause drowsiness and dizziness. H224 Extremely flammable liquid and vapour. H225 Highly flammable liquid and vapour. H302 Harmful if swallowed. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness. Flam. Liq.-Flammable liquid Eye Irrit.-Eye irritation STOT SE-Specific target organ toxicity - single exposure - narcotic effects
