ventilation. Seek medical attention if symptoms persist.

First-aid measures after skin contact : If irritation occurs and product is on the skin, rinse thoroughly with water,

followed by a thorough washing of the affected area with soap and water. If irritation, redness or swelling persists, contact a physician immediately.

First-aid measures after eye contact : Flush with copious amounts of water. Seek medical attention if symptoms

persist.

First-aid measures after ingestion : If ingested, do not induce vomiting. If product has been swallowed, drink

plenty of water or milk. If the patient is vomiting, continue to offer water or milk. Never give anything by mouth to an unconscious person. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed. Seek medical attention immediately.
