5. Fire-fighting measures

Suitable extinguishing media: dry chemical powder, alcohol-resistant foam, carbon dioxide (CO₂).

Unsuitable extinguishing media: None.

Fire hazard: Highly flammable liquid and vapor. Vapors are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors. Combustion products may include the following: carbon oxides (CO, CO₂) (carbon monoxide, carbon dioxide), nitrogen oxides (NO, NO₂, etc.).

Special protective equipment and precautions for fire-fighters: Eliminate all ignition sources if safe to do so. Cool down the containers exposed to heat with a water spray. Prevent runoff from entering water courses, sewers and basements. Do not attempt to take action without suitable protective equipment. Fight fire with normal precautions from a reasonable distance.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Eliminate ignition sources. Avoid contact with eyes, skin and clothing. Wear suitable protective clothing. Do not breathe vapors. Ventilate area.

Methods and material for containment and cleaning up: Stop leak if safe to do so. Do not touch or walk on the spilled product. Take up liquid spill into absorbent material. Use non-sparking tools. Notify authorities if product enters sewers or public waters. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13).

7. Handling and storage

Precautions for safe handling: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid contact with eyes, skin and clothing. Wear personal protective equipment. Wash hands with water and soap. Avoid breathing mist, vapors. Ensure adequate ventilation. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container closed when not in use.

Storage conditions: Store in dry, cool, well-ventilated area. Keep container closed when not in use.
