Storage: Keep away from heat, in a cool and dry place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limit values

Ingredient name Occupational exposure limits No exposure limit value known

Respiratory protection: If the threshold value for one or more of the substances present in the preparation for daily exposure in the workplace or to a fraction established by the company's prevention and protection service is exceeded, wear an FFP3 (ref. standard EN 141) type half mask. The use of breathing protection equipment, such as masks with organic vapor and dust/mist cartridges, is necessary in the absence of technical measures limiting worker exposure. In the event of prolonged worker exposure, verify the possibility of operating in a closed circuit or of reorganizing the work cycle to avoid repetitive exposure; make sure the PPE used is as efficient as possible.

Hand protection: Protect hands with category I (ref. Directive 89/686/EEC and standard EN 374) work gloves, such as those in latex, PVC or equivalent.

Eye protection: Use of protective airtight goggles (ref. standard EN 166) recommended.

Skin protection: Wear category I professional long-sleeved overalls and safety footwear (ref. Directive 89/686/CEE and standard EN 344). Wash body with soap and water after removing overalls.

Environmental exposure controls: Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
