## **Safety Data Sheet**

Trade Name: Tray Adhesive

1.0	Commercial Product Name and Supplier			
1.1	Commercial product name / designation	Tray Adhesive		
1.2	Application / Use	Dental material for	use by dental professio	nals.
1.2.2	SIC	851 Human health	activity	
1.2.3	Use Category	55		
1.3	Manufacturer			
	Pulpdent Corporation 80 Oakland Street P.O. Box 780 Watertown, MA 02472 USA	Telephone: 1 617 9 Fax: 1 617 926-626 Email: <u>Pulpdent@p</u>	2	
1.4	Emergency Telephone Number	1-800-535-5053 (24	1 Hour / USA)	
1.5	Authorized European Representative International Business Solutions Ltd. 54 Mayfield Ridge, Hatch Warren Basingstoke, RG22 4RS UK	Tel: 07989 407479 Fax: 01256 350330 Email: s.williams5@		
2.0	Hazards Identification			
2.1	Classification			
2.1.1	Classification according to Regulation (EC) No. 1272/2008 [CLP]	<u>Hazard Class</u> Flammable liquid	Hazard Category 2	Hazard Statement H225
		Eye irritation	2	H319
		STOT SE	3	H335
		Skin irritation	2	H315
2.1.2	Classification according to Directive 67/548/EEC	Flammable (F) R11		

## 2.2 GHS Label Elements

Hazard Pictograms

(See SECTION 16 for full text of risk phrases)

Signal Word: DANGER

Restricted to use by dental professional only

**Hazard Statements:** 

H225: Highly flammable liquid and vapor. Category 2.

H319: Causes serious eye irritation. Category 2.

H335: Specific Target Organ Toxicity (STOT), single exposure, respiratory tract, Category 3: May cause respiratory

Irritant (Xi) R36 / 37 / 38 - 66

irritation.

H315: Causes skin irritation. Category 2.

EUH066: Repeated exposure may cause skin dryness or cracking.

**Precautionary Statements:** 

P210: Keep away from heat, sparks, open flame, hot surfaces. No smoking.

P403+P233: Store in a well-ventilated place. Keep container tightly closed.

## **Safety Data Sheet**

Trade Name: Tray Adhesive

P261: Avoid breathing fumes.

P280: Wear protective gloves/ clothing and eye protection.

P304+P340: If inhaled, remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305+P351+P338: If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy

Revision Date: May 1, 2014

to do. Continue rinsing.

P303+P361+P353: If on skin or hair, remove contaminated clothing. Rinse skin with water.

P370+P378: In case of fire, use dry chemical, alcohol foam, or carbon dioxide for extinction.

3.0	Composition					
3.1	Chemical charac	cterization of the prep	aration:	Isopropyl alcohol pre	paration.	
3.2	Hazardous ingredients					
	CAS Number	Name of the Ingredient	Concentration	Classification per 67/548/EEC	Classification per Regulation (EC) No.1278/2008 (CLP).	
	67-63-0	Isopropyl alcohol	60%	Flammable (F); Irritant (Xi). R11- 36/ 37/38-66	Flammable liquid, Category 2 Eye irritation, Category 2 STOT SE, Category 3 Skin irritation Category 2.	
4.0	First Aid Measu	ures				
4.1	General Information  May cause irritation of eyes or skin on contact. May cause irritation of respirate tract if inhaled. Isopropyl alcohol may cause headache, drowsiness, lass appetite loss. Show this safety data sheet to medical personnel. Get mattention in case of uncertainty.			ay cause headache, drowsiness, lassitude,		
4.2	Eye Contact		Keep eyelids apart, flush with running water for 15+ minutes. Get medical attention.			
4.3	Skin Contact		Remove contaminated clothing. Immediately wash with soap, running water. Use hand cream. Get medical attention if irritation persists.			
4.4	Ingestion		Rinse mouth with water. Do not induce vomiting. Get immediate medical attention. Never give anything by mouth to an unconscious person.			
4.5	Inhalation		Move to fresh air. If necessary, administer oxygen and/or artificial respiration seek medical attention.			
4.6	Precautions for	first responders	esponders Ventilate the area. Wear safety glasses and gloves.			
4.7	Information for p	hysicians				
	Symptoms			Contact with material may cause irritation or redness in eyes or on skin. Inhalation may cause irritation of respiratory tract.		
	Hazards		Exposure to ethanol >1000 ppm may cause headache, drowsiness, lassitude, appetite loss. Persons with chronic respiratory or skin disease are at increased risk with prolonged and/or repeated contact.			
	Treatment		Same as abo	Same as above under First Aid		
5.0	Fire Fighting M	leasures				
5.1	Suitable extingu	ishing media	Use dry chemical, alcohol foam, or carbon dioxide. Water may be ineffective, but should be used to keep fire-exposed containers cool.			

Trade Name: *Tray Adhesive* 

5.2	Extinguishing media to avoid	Water may be ineffective, but will keep fire-exposed containers cool.
5.3	Special exposure hazards in a fire	Carbon monoxide, carbon dioxide from incomplete combustion
5.4	Special protective equipment for fire- fighters	Self-contained breathing apparatus.
6.0	Accidental Release Measures	
6.1	Personal precautions.	Wear chemical splash goggles and gloves.
6.2	Environmental precautions	Avoid releasing large quantities into environment.
6.3	Method for clean up	For small quantities: Ventilate area. Wear safety glasses, lab coat, gloves. Wipe up with absorbent material (paper or cloth towels). Rinse area of spill with water. Place all material in closed container away from heat, sparks, sun and oxidizers.
7.0	Handling and Storage	
7.1	Handling	For use by dental professionals only. Recap immediately after use. Keep material tightly capped in original container. Do not use in presence of ignition sources. Take same precautions when container is emptied, as residual product is hazardous.
7.2	Storage	Keep tightly capped in original container. Store at cool room temperature in a well-ventilated area. Avoid extreme temperatures (>27°C/80°F, <5°C/40°F), sparks, direct sunlight, oxidizing agents. Vapor may form flammable mixtures with air.
7.3	Specific uses	Dental material
8.0	Exposure Controls / Personal Protection	
8.1	Exposure limit values	TWA/TLV: 200 ppm; STEL: 400 ppm
8.1 8.2	Exposure limit values Exposure controls	TWA/TLV: 200 ppm; STEL: 400 ppm
	·	TWA/TLV: 200 ppm; STEL: 400 ppm  No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.
8.2	Exposure controls	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation,
8.2 8.2.1	Exposure controls  Occupational exposure controls	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.
8.2 8.2.1 8.2.1.1	Exposure controls  Occupational exposure controls  Respiratory protection	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.
8.2 8.2.1 8.2.1.1 8.2.1.2	Exposure controls Occupational exposure controls Respiratory protection Hand protection	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.
8.2 8.2.1 8.2.1.1 8.2.1.2 8.2.1.3	Exposure controls Occupational exposure controls Respiratory protection Hand protection Eye protection	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.
8.2.1.1 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4	Exposure controls Occupational exposure controls Respiratory protection Hand protection Eye protection Skin protection	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use.
8.2.1.1 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4 8.2.1.5	Exposure controls  Occupational exposure controls  Respiratory protection  Hand protection  Eye protection  Skin protection  Other controls	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use. Do not eat, drink or smoke.
8.2 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4 8.2.1.5	Exposure controls  Occupational exposure controls  Respiratory protection  Hand protection  Eye protection  Skin protection  Other controls  Environmental exposure controls	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use. Do not eat, drink or smoke.
8.2 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4 8.2.1.5 8.2.2	Exposure controls  Occupational exposure controls  Respiratory protection Hand protection Eye protection Skin protection Other controls  Environmental exposure controls  Physical and Chemical Properties	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use. Do not eat, drink or smoke.
8.2 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4 8.2.1.5 8.2.2 9.0	Exposure controls  Occupational exposure controls  Respiratory protection Hand protection Eye protection Skin protection Other controls  Environmental exposure controls  Physical and Chemical Properties  Appearance / Color	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use.  Do not eat, drink or smoke.  Follow all government regulations.
8.2 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4 8.2.1.5 8.2.2 9.0 9.1	Exposure controls  Occupational exposure controls  Respiratory protection Hand protection Eye protection Skin protection Other controls  Environmental exposure controls  Physical and Chemical Properties  Appearance / Color Color	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use.  Do not eat, drink or smoke.  Follow all government regulations.  Red, viscous liquid  Characteristic, alcohol odor
8.2 8.2.1.1 8.2.1.2 8.2.1.3 8.2.1.4 8.2.1.5 8.2.2 <b>9.0</b> 9.1 9.1.1 9.1.2	Exposure controls  Occupational exposure controls  Respiratory protection  Hand protection  Eye protection  Skin protection  Other controls  Environmental exposure controls  Physical and Chemical Properties  Appearance / Color  Color  Odor	No special equipment or ventilation required under normal conditions of use. For large quantities/prolonged exposure, use enclosure, local ventilation, dilution to reduce concentration below TLV.  Good general ventilation is sufficient to control any airborne vapors.  No special requirements other than surgical gloves.  No special requirements other than safety glasses.  No special requirements other than good hygiene and safety practices.  Emergency eye wash fountain should be close by. Wash hands after use.  Do not eat, drink or smoke.  Follow all government regulations.  Red, viscous liquid  Characteristic, alcohol odor

## Pulpdent Corporation Safety Data Sheet

Trade Name: *Tray Adhesive* 

		material or contaminated packaging.
13.1	Regulations	Follow all local and national government regulations in disposing
13.0	Disposal Considerations	
12.1	Ecotoxicity	Follow good work practices and government regulations. Avoid release into environment.
12.0	Ecological Information	
11.7	Clinical experience	<i>Tray Adhesive</i> and similar products have been used in dentistry for decades with no reported problems.
11.6	Empirical data	None available
11.5	Carcinogenicity, Mutagenicity, Reproductive Toxicity	None known
11.4	Sub-acute, sub-chronic and prolonged toxicity	No chronic health hazard under normal conditions of use.
11.3	Sensitization	Not applicable.
11.2	Irritation and corrosiveness	May cause irritation/redness of eyes or skin on contact. May cause irritation of respiratory tract if inhaled.
11.1	Acute toxicity	Minimal health hazard under normal conditions of use. LD <sub>50</sub> Oral rat: 5000 mg/kg
11.0	Toxicological information	
10.4	Further information	Stable if stored and used as directed.
10.3	Hazardous decomposition products	Carbon oxides
10.2	Materials to avoid	Oxidizing agents, acid anhydrides, aluminum, halogenated compounds, acids.
10.1	Conditions to avoid	Temperature >80°F/24°C, sparks, open flame, ignition source.
10.0	Stability and reactivity	
9.2.13	Evaporation rate	Not determined
9.2.12	Vapor density	1.59
9.2.11	Viscosity	Not determined
9.2.10	Partition coefficient	Not determined
9.2.9	Solubility in water	Partial
9.2.8	Specific gravity	Not determined
9.2.7	Vapor pressure	4.4 mm Hg
9.2.6	Odor threshold	23.4 ppm
9.2.5	Explosive properties	LEL: 2; UEL: 12.7
9.2.4	Auto-ignition temperature	425°C
9.2.3	Flash point	12°C (Tag closed cup)
9.2.2	Boiling point	82°C
	•	

Trado Harrio. Tray harronto			
14.0	Transport Information		
14.1	UN Number	1219	
14.2	Technical name	Isopropanol	
14.3	Packing group	II	
14.4	IATA class	3	
15.0	Regulatory Information		
15.1	EU	Class I medical device under MDD 93/42/EEC.	
15.2	US FDA	Class II medical device	
15.3	Health Canada	Class I medical device	
16.0	Other information		
16.1	List of relevant R phrases	R11: Highly flammable R36/37/38: Irritating to eyes, respiratory system and skin. R66: Repeated exposure may cause skin dryness or cracking.	
16.2	Hazard Statements	H225: Highly flammable liquid and vapor. Category 2. H319: Causes serious eye irritation. Category 2. H335: Specific Target Organ Toxicity (STOT), single exposure, respiratory tract, Category 3: May cause respiratory irritation. H315: Causes skin irritation. Category 2.	
16.3	Precautionary Statements	P210: Keep away from heat, sparks, open flame, hot surfaces. No smoking. P403+P233: Store in a well-ventilated place. Keep container tightly closed. P261: Avoid breathing fumes. P280: Wear protective gloves/ clothing and eye protection. P304+P340: If inhaled, remove victim to fresh air and keep at rest in a position comfortable for breathing. P305+P351+P338: If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P303+P361+P353: If on skin or hair, remove contaminated clothing. Rinse skin with water. P370+P378: In case of fire, use dry chemical, alcohol foam, or carbon dioxide for extinction.	
16.4	Restrictions on use	Pulpdent dental materials are to be sold to and used by dental professionals only.	

Trade Name: *Tray Adhesive* 

16.5	Further information	The information presented herein is believed to be factual as it has been derived from the works of persons believed to be qualified experts. However, nothing contained in this information is to be taken as a warranty or representation for which Pulpdent Corporation bears legal responsibility. The user should review any recommendations in the specific context of the intended use to determine whether they are appropriate.
16.6	Sources of key data	National Institute for Occupational Safety (NIOSH)
		US Occupational Safety and Health Administration (OSHA)
		Eur-Lex European Union Law: Regulation (EC) No. 1272/2008 (CLP) and Regulation (EC) No. 1907/2006 (REACH).
		Guidance on the compilation of safety data sheets. Version 1.1; December 2011. European Chemicals Agency
16.7	Information which has been added, deleted or revised.	This Safety Data Sheet has been revised to meet the requirements of the GHS SDS format, Regulations (EC) No. 1272/2008 (CLP) and (EC) No. 1907/2006 (REACH). Specifically, Sections 2.1, 2.2, 3.2, 16.2, 16.3 have been modified.
