Dental Health Products, Inc. is appointed exclusive distributor of Anturi® digital sensors.

NEW FRANKEN, WI— September 29, 2010. Dental Health Products, Inc. (DHPI) is pleased to announce that it has been awarded exclusive rights by DentiMax to sell Anturi® digital sensors. The product features the latest CMOS radiography and will complement almost all leading dental software that seamlessly integrates clinical, financial and digital X-ray needs into one user-friendly system. DHPI and DentiMax believe that Anturi® will prove to be a valuable tool for dental practices across the United States.

“The images from the Anturi® sensor are amazingly clear, if not the best I have seen in sometime; it takes dental imaging to a new level for the industry” states Steve Desautel, Vice President of Sales and Marketing, for Dental Health Products, Inc.

The new Anturi® sensor contains a host of beneficial features including: crystal-clear, film like X-ray images; improved patient comfort, 64-bit Windows® 7 compatibility; powerful and easy to use software, the latest in complementary metal-oxide-semiconductor (CMOS) technology, space saving design (it's boxless), and free software training. It also works with most digital panoramic X-ray machines and intraoral cameras. Anturi® digital sensors will be available September 30, 2010. For more information go to www.dhpionline.com/anturi.

Dental Health Products, Inc. is a full-service distributor of dental supplies and equipment with two distribution warehouses and six full service branch locations. DHPI is considered one of the top dental distributors in the U.S. It offers full-line equipment sales, installation and service, hand-piece and small equipment repair, office design, digital equipment and integrated practice management software, inventory control products, and dedicated and personalized account management.
