NEW FRANKEN, WI – November 2019

Dental Health Products Inc. (DHPI) and TePe Oral Health Care Inc. are happy to announce a partnership by which DHPI is distributing TePe's products in the professional channel in the USA.

Mr. Stefan Vincze, General Manager of TePe in the US (www.tepeusa.com), said, "We are very pleased to have reached this agreement between TePe and DHPI. The synergies between DHPI's distribution and customer service capabilities and TePe's outstanding quality will serve our dental professional customers well. By broadening our distribution and increasing product availability, we make good oral health possible for more people."

About TePe

TePe is a privately held Swedish company founded in 1965. Based on their vision, "To bring healthy smiles for life by inspiring good oral health", the comprehensive TePe range is developed in collaboration with odontological experts and manufactured in Sweden. The steadily growing company is present with its own subsidiaries in eight countries and has distribution in over 60 countries.

Another example of TePe's close relationship with the dental profession is the Eklund Foundation, founded by TePe's owners, the Eklund family, in 2015. It rests on a donation of €5.5 million and distributes funds to odontological research projects annually. Read more at www.eklundfoundation.org.

About DHPI

Dental Health Products, Inc. (DHPI) has been distributing products to the healthcare industry for nearly 30 years. Founded in 1991 by Dale Roberts, DHPI has grown from a home-based business to a nationally ranked dental supply distributor offering over 18,000 stocked products represented by more than 550 manufacturers. DHPI's mission is "To provide personalized and timely solutions for our healthcare partners so they can continue to exceed their goals and their patients' expectations."

One of DHPI's core business objectives is to actively contribute to a variety of causes within the dental industry. In addition, they support the dental trade and foundations such as the DTAF and DentaCheques whose missions are to help the underprivileged gain access to basic dental care.

Environmental Responsibility

Besides a mutual dedication to people's health, the companies share a passion for sustainability.

TePe aims to conduct their work in accordance with the UN Sustainable Development Goals of Agenda 2030 and urges all users to dispose of products and packaging responsibly. TePe's high-tech production facility in Malmö is powered by 100% renewable energy. The company is engaged in the development of eco-friendly solutions and aim to shift to renewable raw materials in product and packaging. One step in this direction is the TePe GOOD line of products, made of bio-based plastics derived from sugar cane. Read more about TePe's sustainability commitment at <https://group.tepe.com/about-tepe/sustainability/>.

DHPI's operations focus on sustainability and support those manufacturers that have similar business models. The company engages in protecting our resources by using environmentally friendly products and recycling materials whenever possible.

The TePe range of interdental brushes, toothbrushes, and dental sticks is developed in collaboration with dental experts with the aim of promoting good oral health. All design, development, and production take place at the headquarters in Malmö. The products are marketed by subsidiaries in eight countries and distributors in over 60 countries, and available primarily through dental practices, pharmacies, and retail. TePe has 340 employees and turnover of MSEK 750 (2018).

DHPI has been servicing the dental industry for nearly 30 years offering a full line of dental supplies, dental equipment, and dental solutions.
